

Hail Destruction

Bleeding Through

Hail destruction

No mercy for the traders of our souls
Left to rot, collect all their skulls
How disgusting, we watch this decay
Now humanity's lost
And we are left to blame

Hail destruction
Destruction, destruction
Destruction

Feel the cold, dead hands around your necks
Around your necks
Choking morality from your heart
Killing what is left

Nothing remains
Nothing remains
Nothing remains
Nothing remains

Eradicate purities, what's inside
Infecting your mind
How pathetic, we see life erase
Leaving beauty behind

Hail destruction
Destruction, destruction
Destruction

Feel the cold, dead hands around your necks
Around your necks
Choking morality from your heart
Killing what is left

Nothing remains
Nothing remains
Nothing remains
Nothing remains

Nothing remains
We've reached humanity's last chance
We've reached humanity's last chance
It's kill or be killed
It's kill or be killed
We feed off emptiness and greed
So disgusting we feel

So disgusting we feel
So disgusting we feel
