No Friends

Bleeding Through

Go ahead and talk your shit.
Watch where you stand or you will step in it.
Don't make me laugh when you talk about friends.
I hit the bottom, close to the bitter end.

So what now pretend I don't exist.
I'll hunt you all, you'll never get ride of this.
I'll be the villain the one you cast aside.
You'll be the coward the one who runs and hides.

No regrets for my time in the world
And for the people I despise.
So filled with hatred, so filled with lies.
Did me a favor when you pushed me aside.

So what now? Wait for me to bleed.
I'll be the ghost, you'll never fucking kill me.
I'll be the villain the one you cast aside.
You'll be the coward the ones who runs and hides.

I'm not afraid of death.
Tear me down.
Embrace the flames of hell.
Burn me down.
Burn me down.
Go.

Go ahead and talk your shit.
Watch where you stand or you will step in it.
Don't make me laugh when you talk about friends.
I hit the bottom, close to the bitter end.

So what now pretend I don't exist.
I'll hunt you all, you'll never get ride of this.
I'll be the villain the one you cast aside.
You'll be the coward the one who runs and hides.

I'm not afraid of death.
Tear me down.
Embrace the flames of hell.
Burn me down.
Burn me down.
