

Rage

Bleeding Through

"I am the Devil, and I am here to do the Devil's work"

When I rise, set me on fire
Set ablaze to all that I love
Bury all my secrets
Six feet below before I explode

Tear my flesh, ignite the belief
Rip my eyes out so I no longer see
All the chaos and all the deceit
My mind created, burning me alive
Bury my secrets
One at a time
Don't keep me alive
Carry regret and all that it hides

Embrace the curse of chaos and rage
Burning slowly, it's all that remains
Destroy all my secrets
Erase these memories and all that I gave

Light the match
Erase it all
Throw me away (Away)
Torch it all
Remember me
Forget someday (Someday)
Kill it all
Bury this
Forget everything (Everything)
Leave it all
Destroy the past
Throw me away (Away)

Tear my flesh
Ignite the belief
Rip my eyes out so I no longer see
All the chaos and all the deceit
My mind created, burning me alive
Bury my secrets
One at a time
Don't keep me alive
Carry regret, just leave me behind

Embrace the curse of chaos and rage
Burning slowly it's all that remains
Destroy all my secrets
Erase these memories and all that I gave

Light the match
Erase it all
Throw me away (Away)
Torch it all
Remember me
Forget someday (Someday)
Kill it all
Bury this

Forget everything (Everything)
Leave it all
Destroy the past
Throw me away (Away)

Just leave me behind
Just leave me behind
Just leave me behind
Just leave me behind
