

## Set Me Free

## Bleeding Through

Nothing will ever be the same  
Laid to waste all emotion  
Forget my name  
Empty words that's all you fucking meant  
A million miles of separation  
Set me free  
Set me free

Embrace the flames of this sacrifice  
Set me free  
Out of the darkness to seek the light  
Set me free  
Set me free

Set me free

Now broken hope and warning signs  
Searching just to be abused  
Die among who fucking hide  
Liars words  
All you fucking meant  
A million miles of separation  
Set me free  
Set me free

Embrace the flames of this sacrifice  
Set me free  
Out of the darkness to seek the light  
Set me free  
Set me free

Set me free

Nothing will ever be the same  
Laid to waste all emotion  
Forget my name  
Empty words that's all you fucking meant  
A million miles of separation. Set me free  
Set me free

Embrace the flames of this sacrifice  
Set me free  
Out of the darkness to seek the light  
Set me free  
Set me free

Set me free
