

## Sweet Vampirous

### Bleeding Through

i've cursed this day with no regrets, with no compromise. curse  
your grace.  
shallow, this hatred that presses its finger to my lips. simple  
love is to  
blame. i won't lay my head down with this shame. kiss the sky.  
i'm always waiting  
here on the ground, on the ground. be warned. shallow, this hat  
red that  
presses its finger to my lips. be warned, she'll kill you. be w  
arned, she'll kill us  
all. be warned, she'll kill you. be warned, she'll kill us all.  
be warned. be  
warned, she'll kill you. be warned she'll kill me.
