

War Time

Bleeding Through

You chose to cross me at the wrong fucking time
Everything you said to me - lies
This bond of sacrifice dies
Pull this aggression from pain
Spit the venom deep from my hate
Scars remain in search for the truth
I'll never fucking be like you

I feel the torment again
Battle tested. War in my head
Prepare the darkest embrace
Choking to death as you look at my face
Don't give a fuck what you believe
You're all a sickness to me
I'll never fucking be like you
I'll never fucking be like you

I am becoming
I have become your enemy
I have become your enemy

Now I can see everything
Buried alive every word you said
Now I can feel everything
Closure in darkness remain

You chose to cross me at the wrong fucking time
Everything you said to me - lies
This bond of sacrifice dies
Pull this aggression from pain
Spit the venom deep from my hate
Scars remain in search for the truth
I'll never fucking be like you

I feel the torment again
Battle tested. War in my head
Prepare the darkest embrace
Choking to death as you look at my face

Don't give a fuck what you believe
Your life is disgusting
Rather die than be like you
I'll never fucking be like you

I am becoming
I have become your enemy
I have become your enemy
I am becoming

Now I can see everything
Buried alive every word you said
Now I can feel everything
Closure in darkness remain

I am becoming
I have become your enemy
I am becoming

I have become your enemy
