

## Ride Into The Night

Blessed By A Broken Heart

Our engines roar  
As we soar right out of sight  
Ride into the night

This speed could kill us  
But it makes us feel alive  
Ride with all our might

We've done this wrong for so long  
We need to make things right  
Our shoulders this will lay on  
Don't stop until its light

Ride into the night  
Tomorrow might be too late  
Ride into the night  
To fight for love to reign  
We ride

There is no turning back  
We need to win this fight  
Ride into the night

We'll do whatever it takes  
We'll take this to the sky  
Ride with us tonight

If we ride into the night  
We can make it right  
We can win this fight

If we ride till the morning light  
With all our might  
We can win this fight
