

## Incoming Wounded

## Blessed Death

Incoming wounded  
Mortars flying, flames are flashing  
Bullets ripping by, I don't want to die  
Incoming wounded  
Lying in this field for two days bleeding  
Incoming wounded  
Maggots crawling, my flesh their feeding  
Incoming wounded  
Someone take me away  
Incoming wounded  
Just to die another day  
Medevac come take us out  
So many wounded don't know what nam's about  
Got to get somewhere to kill this pain  
57000 died in fuckin' vein  
Incoming wounded  
War machine just keeps turning  
Incoming wounded  
Men are dying on this killing floor  
Incoming wounded  
Take us out, stop the bleeding  
Incoming wounded  
Bring us back to feed the war  
No.  
Never again will the sound of war  
Prepare my mind to kill  
I gave my life to pigs of war  
To kill or just be killed  
Bring us to the front line  
And watch from war away  
Evacuate the ones who bleed  
And ship more up today  
Nam screaming in my head  
Never forget the M.I.A.
