

Christmas Weather

Blessid Union Of Souls

Tonight I'm so glad you called
The mistletoe's so magical
Watching the snowflakes fall for you, for you
The chill is inevitable
Fire's unforgettable
Your kiss is incredible, yes, it's true

So honey, if you're into regifting
You lean in and I'll lean in, it's that time of the year
To warm up together
Baby, let's keep shaking the cold off
Get cozy, come take your coat off
It feels like Christmas (feels like Christmas) weather

Ain't love a miracle?
Some say traditional
I say it's a wonderful life
We can stay home alone
Put on some Nat King Cole
Sway to it all night long

So honey, if you're into regifting
You lean in and I'll lean in, it's that time of the year
To get warm together
Baby, let's keep shaking the cold off
Get cozy, come take your coat off
It feels like Christmas (feels like Christmas) weather

Ain't you feeling that peace and love? (Peace and love?)
'Cause baby, I just can't get enough (get enough)
Of this cuddle-up kinda season
I don't think we need a reason
To love, oh

So honey, if you're into regifting
You lean in and I'll lean in, it's that time of the year
To warm up together
Baby, let's keep shaking the cold off
Get cozy, come take your coat off
It feels like Christmas (feels like Christmas) weather

So honey, if you're into regifting
You lean in and I'll lean in, it's that time of the year
To get warm together
Baby, while you're shaking the cold off
Get cozy, come and take your coat off
It feels like Christmas (feels like Christmas) weather
