

Wild Side of Me

Blessid Union Of Souls

It's been awhile since we hung out like this
I still recall the castle and that kiss
But here in California it's the bliss
That I'll remember from now on
Cause you bring out the wild side of me
You bring out the wild side of me
You bring out the wild side of me
And that's all right
I like the way you unlock my doors
And all the ways you leave me wanting more
I wonder can you tell I'm insecure
That you might find me and finally you can't deny me
Cause you are the wild side of me
You bring out the wild side of me
And you don't mind the wild side of me
And that's all right
Suddenly the feelings that we know we can't reveal
Are trying to find their way into our conversation
But we know we can't go too far
If things are cool the way we are
But there's something tsaïd for not saying the words
Cause you bring out the wild side of me
You bring out the wild side of me
You are the wild side of me
And that's all right
