

All Over The World

Blessing Offor

Your love's got so much power
Just one touch and now we're
Paris, France and Eiffel Tower
My heart keeps beating louder

West Village in New York City
Happens every time you kiss me
Chicago's so cold and windy
But you make it feel so pretty

Thirty thousand feet in the sky
Every time I look in your eyes
No matter where I promise you I'll

Love you girl
All over the world
All over the world
All over the world
All over the world

I don't need no outer space
The stars they don't got your grace
You're sweeter than a Milky Way
With every word you say

Thirty thousand feet in the sky
Every time I look in your eyes
No matter where I promise you I'll

Love you girl
All over the world
All over the world
All over the world
All over the world

You got me like
Ooo, ooo
You got me like
Ooo, ooo
You got me like
Ooo, ooo
You got me like
Ooo, ooo

That's why I'll love you girl
All over the world
All over the world
All over the world
All over the world

All over the world (I'm talking north to south
Coast to coast
Everywhere)
All over the world (Around the globe
It don't matter where we go
I'll love you girl)
All over the world (I'm talking north to south

Coast to coast
Everywhere)
All over the world (Around the globe
It don't matter where we go
I'll love you girl)
All over the world
(All over
All over
All over yeah)
All over the world
(All over
All over
All over...)
