

Carry On

Blessing Offor

We're just trying to move along the best we can without you
We're just trying to carry on
Carried on by the memories of you, you, you
Carried on by the memories of you

I don't like this chapter, I don't wanna learn this book
Where's happy ever after? I don't like the turn this took
And I still wanna talk, yeah, I still wanna call
It's crazy that you're gone and everything is wrong

We're just trying to move along the best we can without you
We're just trying to carry on
Carried on by the memories of you, you, you
Carried on by the memories of you

Should've, could've, maybe, but now I guess we'll never know
I know memories get hazy, but that's the way I keep you close
And I still wanna talk, yeah, I still wanna call
It's crazy that you're gone and everything is wrong

We're just trying to move along the best we can without you
We're just trying to carry on
Carried on by the memories of you, you, you
Carried on by the memories of you, you, you
Carried on by the memories of you

Carry on, carry on
Good morning, um, nothing's going on, I was just
Calling to check on you, see how you're doing, see how you're feeling, so
Carry on, carry on
I'm hoping you are, uh, home safe

We're just trying to move along the best we can without you
We're just trying to carry on
Carried on by the memories of you, you, you
Carry on, carry on
Carried on by the memories of you, you, you
Carry on, carry on
Carried on by the memories of you

We're just trying to move along the best we can without you
We're just trying to carry on
Carried on by the memories of you
