

Look At Love

Blessing Offor

You could've had it easier, I told you
All the problems that you didn't have to go through
All the exit signs I showed you
But you stayed, you stayed
And I could work my life away
Day and night, and night and day
But all the money I would make
Couldn't buy what you deserve

So let me guard you with my heart
Let me keep you in my arms
We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love
Would you look at love
We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love

And I thought that maybe I should run
Pray and find a better one
But he wouldn't kiss you near as much
As you like, you like it
Then I thought that maybe I should hide
But I know it's just my stupid pride
Cause you always seem to read my mind
And I'm weak when you're gone

So let me guard you with my heart
Let me keep you in my arms
We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love
Would you look at love
We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love

When you want a break, look at love
It's the only way, look at love
Don't you wanna say, "Look how far we've come"
Would you look at love
When you want a break, look at love
It's the only way, look at love
Don't you wanna say, "Look how far we've come"

Let me guard you with my heart
Let me keep you in my arms
We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love
Would you look at love

We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love
Would you look at love
We can look up at the stars
Feel how small we are, but
Look how far we've come
Would you look at love
