

# My Tribe

## Blessing Offor

You can keep your money  
You can keep your gold  
I'll keep the ones who want me  
Won't ever let me go  
You can keep your fast lane  
And I'ma take it slow  
Ticket on that last train  
And I'ma make it home to

My people, my tribe  
My village, my vibe  
My Beatles, my Jackson Five  
My reason, my rhyme  
My ready anytime  
Yeah, everything is all right

When we come together  
Come together, my people, my tribe  
When we come together  
Come together, everything is all right

I don't want no trouble  
(I don't want no trouble, no)  
Just a little rest for my soul  
And I know where to run to (Yeah)  
When the world gets cold, ooh

My people, my tribe  
My village, my vibe  
My Beatles, my Jackson Five  
My reason, my rhyme  
My ready anytime  
Yeah, everything is all right

When we come together  
Come together, my people, my tribe  
When we come together  
Come together, everything is all right

Everything is all right  
Everything is all right, yeah-yeah  
Everything is all right, oh-oh-oh  
When we come together everything is all right  
Everything is all right (Yes, it is)  
Everything is all right  
Everything is all right, oh-oh-oh  
When we come together everything is all right

My people, my tribe  
My village, my vibe  
My Beatles, my Jackson Five  
My reason, my rhyme  
My ready anytime  
Yeah, everything is all right

When we come together  
Come together, my people, my tribe

When we come together  
Come together, everything is all right
