

Real

Blessing Offer

Everybody's busy acting
Make believing, pretty masking
Chasing things that ain't never been worth having
And just when I almost give up here you come

There's something 'bout the way you move
Something 'bout the way you feel
Oh there's something 'bout the way you are so... real
There's something 'bout the things you do
A hand that holds and a love that heals
Can you tell me how you keep your heart so... real?
Real
Can you tell me how you keep your heart so...

No one else really understands it, how we're
Best friends laughing, and it's still romantic
Love is hard, but we sure do love the practice
Just when I almost gave up, I found the one

There's something 'bout the way you move
Something 'bout the way you feel
Oh there's something 'bout the way you are so... real
There's something 'bout the things you do
A hand that holds and a love that heals
Can you tell me how you keep your heart so... real?

You need me, I need you
It's true, it's true, it's true
You need me, and I need you
We do, we do, we do

You need me, I need you
It's true, it's true, it's true
You need me, I need you
We do, we do, we do

Something 'bout the way you move
Something 'bout the way you feel
There's something 'bout the way you are so... real
Something 'bout the things you do
A hand that holds and a love that heals
Can you tell me how you keep your heart so... real?
Can you tell me how you keep your heart so... real?

Can you tell me how you keep your heart so... real?
