

Set It In Stone

Blessing Offor

Was it the spark in your eyes
Or the smoke in your laugh
That set my heart racing
And running too fast?
And the crowd we were in
They were gone, just like that
I thought I had everything
But it was just half

The frame with me in it
Had something missing
Nothing would fit in
Till you came along
My mind was spinning
You were the vision
I went from wishing
To singing this song

Our love might not always be perfect
But we're getting it close
Now after all the searching
I'll set it in stone

From the bottom of my heart
To the top of my soul
Says it in the stars
You can call me your own
No matter where you are
You won't be alone
You'll always have my arms
So you'll always be home

The frame with me in it
Had something missing
Nothing would fit in
Till you came along
My mind was spinning
'Cause you're still the vision
I went from wishing
To singing this song

Our love might not always be perfect
But we're getting it close
Now after all the searching
I'll set it in stone

And I promise you that if you let me
I'll never let go
If now is the time you're ready
Oh, I'll set it in stone

Our love might not always be perfect
But we're getting it close
Now after all the searching
I'll set it in stone

And I promise you that if you let me

I'll never let go
If now is the time you're ready
Oh, I'll set it in stone

I'll set it in stone
I'll set it in stone
If now is the time you're ready
I'll set it in stone
