

# The Fool

Blessing Offor

Please don't make a promise  
Please don't make a promise  
Please don't make a promise you can't keep  
Don't you know how much I love you  
I love you enough that I'd believe  
Baby, please don't make a promise  
Please don't make a promise  
Please don't make a promise you can't keep

What if you change your mind?  
What if you make new plans?  
What if you find someone  
You think is better than me?  
I'll be the fool who heard your promise and believed

Please don't say you'll never  
Please don't say you'll never  
Please don't say you'll never ever leave  
Don't you know how much I love you  
I love you enough that I'd believe  
Baby, please don't say you'll never  
Please don't say you'll never  
Please don't say you'll never ever leave

What if you change your mind?  
What if you make new plans?  
What if you find someone  
You think is better than me?  
I'll be the fool who heard you, never did believe

Choose your words with care  
Don't you let them go so easy  
'Cause I'm always there  
And they never fail to reach me

Please don't say forever  
Please don't say forever  
Please don't say forever to me  
Don't you know how much I love you  
I love you enough that I'd believe  
Baby, please don't say forever  
Please don't say forever  
Please don't say forever to me

What if you change your mind?  
What if you make new plans?  
What if you find someone  
You think is better than me?  
I'll be the fool who heard you're warmest and believed  
I'll be the fool who heard you, never did believe  
Don't wanna be the fool who heard forever and believed  
I'll be the fool who heard forever and believed, yeah
