

# Your Love

Blessing Offor

Woo, woo  
Woo, woo

I've been runnin' 'round the edges  
Building my own happy endings  
But they couldn't take the test  
And they just fell right down  
I've been tryna push the limits  
Been askin' why I should live in 'em  
Couldn't find no good there in it  
Till You showed me how

To be still and don't move  
So I will 'cause I want You to

Keep me right there in the middle of  
Your love, Your love  
Keep me right there in the middle of  
Your love  
Stars will fall from the sky one day  
When I'm lost, I'll call Your name to  
Keep me right there in the middle of  
Your love

I've been livin' on the fences  
I've been spinnin', I've been restless  
I've been thinkin' selfish  
But it's different now

Oh, be still and don't move  
So I will 'cause I want You to

Keep me right there in the middle of  
Your love, Your love  
Keep me right there in the middle of  
Your love  
Stars will fall from the sky one day  
When I'm lost, I'll call Your name to  
Keep me right there in the middle of  
Your love, your love

Woo, woo (Your love)  
Woo, woo (Your love)

Keep me right there in the middle of  
Your love, Your love  
Keep me right there in the middle of (Oh)  
Stars will fall from the sky one day  
When I'm lost, I'll call Your name to  
Keep me right there in the middle of  
Your love, Your love

Woo, woo (Your love)  
Woo, woo (Your love)  
Woo, woo (Your love)

Keep me right there in the middle of

Your love
