

A beating heart just isn't enough
I'm dying to wake up

I was in too deep
Lost inside of a dream
Trying to find my way out
Losing a piece of me
I could never believe
Said it over and over

Wake up
Wake up

I'm dying to wake up
I just want to reach you but can't get through
I'm trying to make up
The time that I wasted away
Should have been spent on you
Making a memory
Giving the best me
Sorry it took me so long
I'm dying to wake up

You close your eyes
Just for moment
To see your whole life passing by
A beating heart just isn't enough
Look alive
Time won't wait for us
Wait for us

You close your eyes
Just for moment
To see your whole life passing by
A beating heart just isn't enough
It's not enough

I'm dying to wake up
I just want to reach you but can't get through
I'm trying to make up
The time that I wasted away
Should have been spent on you
Making a memory
Giving the best me
Sorry it took me so long

I'm dying to wake up
I just want to reach you but can't get through
I'm trying to make up
The time that I wasted away
Should have been spent on
Making a memory
Giving the best me
Sorry it took me so long
So long

Time won't wait for us

A beating heart just isn't enough
Look alive!
