

## See You On the Outside

Blessthefall

Don't think I didn't see how you looked at me  
What are you waiting for? What are you waiting for?  
I spent those sleepless nights  
And I waited for, and I waited for you.  
Sometimes I'd rather lie.

Oh, we found love  
Takes me farther than you've ever known  
I thought you'd take a shot on us  
You're my only one, still be mine  
And I'll see you on the outside

I never fall a sleep, I only fall apart when your gone.  
I'm hopeless and best on my own!

And I wish that I could close my eyes and pretend that you'd be by my  
side  
Because all I wanted was a face to call my own  
And all I need is a place that feels like home  
I think I'm falling for you

Oh, we found love  
Takes me farther than you've ever known  
I thought you'd take a shot on us  
You're my only one, still be mine  
And I'll see you on the outside

Let's make our way out of town  
This place is falling apart  
No one knows you like I do  
Let's make our way out of town  
This place is falling apart  
No one knows you like I do

Let's leave it all fall behind  
We'll make it out of here alive  
Let's leave it all fall behind  
No one knows you like I do  
Sometimes I'd rather lie.

Oh, we found love  
Takes me farther than you've ever known  
I thought you'd take a shot on us  
You're my only one still be mine  
And I'll see you on the outside  
I'll see you on the outside!
