

Up in Flames

Blessthefall

You always took me for granted
And never gave me a reason why
You left me stranded feeling worthless
Now all I see is death in your eyes
All I see is death in your eyes!

If you're counting all my sins
Hope they all add up so pull the pin
Watch it all go up in flames
Watch it all go up in flames

Don't drag me through your nightmare
Don't tear apart what I am
You've got your demons, they parallel mine
You're not the victim, you're my parasite (you're my parasite!)

You're not the only one
How could you be so selfish?
You never lie, you'll never see the truth
Your body's rising from ashes

If you want to point the blame
Hope you marked your words, you're not a saint
Watch it all go up in flames
Watch you all go up in flames

Don't drag me through your nightmare
Don't tear apart what I am
You've got your demons, they parallel mine
You're not the victim, you're my parasite
Don't drag me through your nightmare
Don't tear apart what I am
You've got your demons, they parallel mine (parallel mine!)
You're not the victim, you're my parasite (you're my parasite!)

If it makes sense
When you can see through clearer eyes (see through clearer eyes!)
If we can't learn
If we can't learn to put the past behind
So
If it makes sense
When you can read between the lines (read between the lines!)
Why can't you learn
We'll never find what we lost inside

Don't drag me through your nightmare
Don't tear apart what I am
You've got your demons, they parallel mine
You're not the victim, you're my parasite

Parasite
You've got your demons, they parallel mine (parallel mine!)
You're not the victim, you're my parasite (you're my parasite!)
You're my parasite!
We'll never find what we lost inside!
