

## Get Up

Bleu

Get Up  
Where were you the other night?  
We coulda used you in the fight  
Oh and everybody said to say "hi"  
We all were wonderin' when you were gonna stop by  
I know ya had a little bad luck  
But didn't anybody tell you everyone does

Get up  
You're just in a slump  
Get up  
You're stuck in rut  
Get up  
Before you loose touch  
Get up

Don'tcha think you've had enough?  
You gotta stop beatin' yourself up  
OH I know how much you like to play rough  
But if ya don't allow the scabs to heal they scar up  
Don't you know I've heard it all before  
So don'tcha leave your sad excuses outside my door

Get up  
You're just in a slump  
Get up  
You're stuck in rut  
Get up  
Before you loose touch  
Get up

Can't you see no matter what I do  
I just can't seem to get my shit together without you

Get up  
You're just in a slump  
Get up  
You're stuck in rut  
Get up  
Before you loose touch  
Get up  
Get up  
Get up  
Get up
