

Deja Fu

Blind Channel

Two years done, now we're out from the basement
Poppin' out violent pop and it's shameless
You should have seen your faces
A disaster is an understatement

This was too much but it's not enough
I know it wasn't smart but it was fun
And now the drumbeat may be gone
But I know our heartbeats carry on

And everybody's like
That's so inappropriate
Well then so be it
Listen up, ladies and gentlemen
We're gonna tear off the ceiling and rip out the floor
Boys, I've gotta feeling we've been here before
We've been here before
We've been here before
We've been here before

Outside we're celebrating
Inside we're suffocating
This isn't a party
This isn't a party
When the storm is raging
I find it elevating
This isn't a party
This isn't a party

This was too much but it's not enough
I know it wasn't smart but it was fun
And now the drumbeat may be gone
But I know our heartbeats carry on

On the other hand
We are just another band
With a little bit of this and a little bit of that
If you hit 'em with a riff, and a little bit of rap
See, we don't give a shit and everybody's getting mad
But I'm glad 'cause that gives a man
What he needs to proceed
Man's gotta eat and NC's still hungry

Outside we're celebrating
Inside we're suffocating
This isn't a party
This isn't a party
When the storm is raging
I find it elevating
This isn't a party (This isn't a party)
This isn't a party

You should have seen your faces
A disaster is an understatement
An understatement

Let's fuck this place up

Hahaha
Oh my God

Outside we're celebrating
Inside we're suffocating
This isn't a party

Outside we're celebrating
Inside we're suffocating
This isn't a party (This isn't a party)
This isn't a party
When the storm is raging
I find it elevating
This isn't a party (This isn't a party)
This isn't a party

This was too much but it's not enough
I know it wasn't smart but it was fun
And now the drumbeat may be gone
But I know our heartbeats carry on

Carry on

Our heartbeats carry on
Our heartbeats carry on
