

# HAPPY DOOMSDAY

Blind Channel

Happy doomsday to you

Everybody's got apocalypse concept  
Panic is a reflex  
Butterfly effects  
This is how the world ends

I think we are the problem  
Staring at the bottom  
Post-post-mortem  
Coming back to protest

When will you realize  
We had one job  
Our time is up

Panic, panic, panic  
It's the day of the doom  
But it ain't for the first time  
Panic, panic, panic  
We ain't paying the dues  
We set them on fire  
When everything burns  
What will you do?  
When the end of the world  
Is yesterday's news  
Happy doomsday to you

Sing me a fucking swan song  
Can you hear the foghorn?  
Ready for the downfall  
Bring the fucking popcorn  
Bring it  
Give it to me

Tying up the loose ends  
Nothing really makes sense  
We don't give a fuck when  
Everyday's a world's end

Our time is up

Panic, panic, panic  
It's the day of the doom  
But it ain't for the first time  
Panic, panic, panic  
We ain't paying the dues  
We set them on fire  
When everything burns  
What will you do?  
When the end of the world  
Is yesterday's news  
Happy doomsday to you

We had one job  
Our time is up

Panic, panic, panic  
Everybody  
Panic, panic, panic  
Come on  
Panic, panic, panic  
Get ready for the  
Panic, panic, panic  
This is how to world ends

Happy doomsday to you

Panic, panic, panic  
It's the day of the doom  
But it ain't for the first time  
Panic, panic, panic  
We ain't paying the dues  
We set them on fire  
When everything burns  
What will you do?  
When the end of the world  
Is yesterday's news  
Happy doomsday to you
