My Revolution

Blind Channel

This is my revolution
This is my revolution
This is my revolution
These are the things that I do to prove you wrong
So what's your revolution?

Young players dreaming of the city of the angels Papers heating with the stories on the pages They just connect the names to their faces Many say they ain't never gonna make it

Been preparing for this since I was in preschool
None of those bullies never taught me how to be cool
'Cause none of those motherfuckers can fill these shoes
Now look at me and get ready for the sequel

This is my revolution
These are the things that I do to prove you wrong
Think fast and don't let 'em hold you back
This is an absolution
'Cause it was you all along who made me strong
So what's your revolution?

One-way ticket to Sziget
Man I will never forget
The sound of thousands of hands clapping
Festivals headbanging
Wanna get up man?
Don't battle the ladder
Let me show you what happens when you put a rapper in Wacken

I may be expendable
Feeling like Stallone
Got my crew I'll never be alone
Time to raid the radio
You're the ones to fall
We rise, turn the anthem on
