## Blind Channel

Ok you cheater I'mma make sure you get this  
This ain't revenge, this is sending a message  
Now did you really think that I would let this slip?  
Everything you did I'll make you regret it

My middle finger salutes you  
My trigger finger is used to  
Riddin' bitches like you  
Blowing your head and your mind too  
Keep on sleeping with those lame dudes  
Not one of them is gonna miss you  
Til you find a shrink to solve those daddy issues

Slither away  
Just slither away

You're spineless  
Look at me you fuckin' liar  
This time you cannot hide it  
Choke on the shit you say  
Go choke on the shit you say  
You know me  
But now you can't control me  
Your poison don't work on me  
One thing you cannot fake  
You can shed your skin but you're still a snake

Why would you say that I'm a creeper on Instagram?  
Yeah, I've heard all the shit you're talking behind my back  
Still you listen to every single track  
Bitch you're a fan  
And about your new man  
Good luck with your breakup  
In advance

Wash your sins but it's too late

Done with this bullshit GG6 taking action  
I know what you're good at  
Apply to Brazzers  
I don't wanna chit chat  
With your fuckin' bitch-ass  
You can shed your skin  
But you're still so

You're spineless  
Look at me you fuckin' liar  
This time you cannot hide it  
Choke on the shit you say  
Go choke on the shit you say  
You know me  
But now you can't control me  
Your poison don't work on me  
One thing you cannot fake  
You can shed your skin but you're still a snake

You wanna wash away your sins but it's too late

You're gonna keep losing at your own game  
You wanna wash away your sins but it's too late  
You can shed your skin but you're still a pathetic snake

You're spineless  
Look at me you fuckin' liar  
This time you cannot hide it  
Choke on the shit you say  
Go choke on the shit you say  
You know me  
But now you can't control me  
Your poison don't work on me  
One thing you cannot fake  
You can shed your skin but you're still a snake
