

# Nephilim

## Blind Guardian

Be aware  
There's someone else inside  
Nocturnal eyes are on the prey

You should realize  
It's not on you  
To turn this page  
Just do as I say

Something is wrong here  
But I don't know what it is  
Still sense there's evil on its way

It's the twist of fate again  
Nephilim

So walk with me  
When the fire comes down  
Fallen angel - son of man  
Find a way  
A glimmer of hope  
Sail away  
On the river of dreams  
Save the age of innocence  
Find a way  
Redeem our souls

Still the clouds will burst  
When fire breaks open the sky

If you all laid cold  
Dead in barren lands

Would you understand  
This life's been more than anything

Life's a dream  
A dream  
A dream  
But who's the dreamer  
One day you'll understand

A lie  
Yet, no one knows  
This road  
One day you'll surely understand

This road's a lie  
Yet no-one knows  
Release the beast  
We're all condemned  
This road  
This road reveals the great unknown

To speak the truth  
We're all condemned  
This road

It is your blood on my hands

It all goes down and  
There's nothing I can really do

The great divide  
No bridge there's no path  
I've been there over yonder  
There's no ending of the road  
Nephilim

So walk with me  
When the fire comes down  
Fallen angel - son of man  
Find a way  
A glimmer of hope  
Sail away  
On the river of dreams  
Save the age of innocence  
Find a way  
Redeem our souls

When the clouds will burst  
A new age begins  
Then  
When the clouds will burst  
Shall healing rain come

This road misleads us  
You should know

This road  
For aeons we have been condemned  
This road  
Oh, there's blood on my hand  
Brother, dear

So walk with me  
When hell fire breaks loose  
Saving grace, old nephilim  
Redeem our souls  
Redeemer of souls  
Come walk with us  
When hellfire breaks loose  
Saving grace, old nephilim  
Come walk with me  
When hellfire breaks loose  
Saving grace  
Redeem our souls  
Redeemer of souls
