

## Fence Breakin Yellin Blues

Blind Lemon Jefferson

Here comes two women : I liked to drove them wild  
Well you drinking bad liquor : you'll be overtaken after  
a while

He must be desperated : I don't know nothing else it  
could be  
Standing on the corner didn't mean no harm : the boy made  
a dash at me

Made a break at me : groped for my pocketknife  
One had me cooling off : while the other one talked about  
taking my wife

And when I went for my gun : you ought to see them  
yelling breaking that fence  
I first thought they was crazy : but I found out they  
didn't have no sense

You can take my money : I mean you can wear my best  
clothes  
Lemon won't kill no quicker : if you bother with my  
jellyroll

Some people like their sugar : I'm a fool about my China  
tea  
You can have all this world : but leave my honeycomb home  
with me
