

# Drive

Blind Melon

**E**

His feet are dirty and his face, his face is long

**A**

And while he's peeking out  
Through his hair he hides the pain  
Till that Lennon song comes along

**C#mi7**

**E/B**

He'll turn it off and say can you drive?

**E D C#m7 E/B E D C#mi7 E/B**

Drive can you drive?

**E D C#mi7 E**

Drive can you drive

**D Es E D Es E**

Jimmy, we need to borrow this for a minute  
Cause we need to escape

**E**

Now there's so many things that  
He's gonna do in 5 lifetimes  
Hell I couldn't do 'em all

**A**

And while he's rolling his own smokes  
He says to me he's buying a new ride today  
A classic deal the boss will give

**A**

**E/B**

**D E5**

He said the same thing two weeks ago

You've seen that sweaty jet rag  
Feeling come over him, and I've  
Seen that boy nod into a dream a time or two  
And on his way out his glazed stare  
Will make you stop and wonder  
Hey William is that the last time  
I'm gonna look at you?  
But the next day the phone will ring  
And it will be him. Can you drive?

**E**

What would you say

**D D E# E**

What would you do

**D Es E**

Or should I pray?

**D Es E D Es E**

Or do you think that this blind mind

**D Es E D Es E D Es E D Es E**  
would listen to me, an-y-way
