Life Ain't So Shitty

Blind Melon

Life ain't so shitty
There's a lot that you can be
And ain't it a pity
But its alright to smile back at me
And if we both go there
We can count on problems that we might not necessarily
Come in contact with,
Hey wake up, do you know where I'm coming from

Life ain't so shitty
There's a lot that you can be
And ain't it a pity
But its alright to smile back at me
And if we both go there
We can count on problems that we might not necessarily
Come in contact with do you know where I'm coming from
