

Coming Back

Blind Pilot

Days are calling back what was
Steady light made of that stuff
Didn't I see it quite enough?
Hear it call just like it was
Everything's coming back to me

Everything's coming back to me
Everything

Every breath that you hold
Gets covered over like morning snow
Daylight comes to behold
Your life gets cut down to watch it go
Because
Everything's coming back to me

Everything's coming back to me
Everything's coming back to me
Everything

Everything's coming back to me
Everything's coming back
Everything's coming back to me
Everything
