

# One Drop

## Blind Pilot

When her song calls to you, this is what we got  
Bet it on the stars at night  
And her thorns stick in you, wanting every drop  
Bet it on the dust in your eyes  
Don't ask for less than all, 'cause that's all that you got

One drop  
We don't get out alive but I don't want no thorns, no  
One drop  
I'll take what I can get. A little bit of life just to give  
Yeah, one drop is all it ever is

And all that we'll be is a dream  
Bleaching in the sun of your mind  
So it might as well be the thing  
That you want to bet with your life  
If you don't ask for more than none  
Well that's all that you got

One drop  
We don't get out alive but I don't want no thorns, no  
One drop  
It's everything there is. A little bit of life just to give

Yeah, a little bit of life just to give  
Yeah, one drop is all it ever is  
All it ever is

One drop is all it ever is  
All it ever is
