

## Warm It up to Me

Blind Willie McTell

Take a little trip : up on a mountain top  
Show the Florida women : how to eagle rock

Tell you like the \*bana\* : told the \*king of sal\*  
Get another man : I got another gal

Now if you don't believe : I can warm you right  
Take me to your house : and let me stay all night

When you see me mama : standing in the door  
Papa wound up : saying mama won't go

Don't be no \*resting\* : don't be no late  
Don't let these women : leave your heart insane

Now look here boy : don't get rough  
These here women : they really knows their stuff

I want you to set on a Cadillac : sit on a Ford  
You do that strutting : on the running board

Don't be no rat : and don't be no fool  
Don't let these here women : break your rule

Now look here boy : if you going to be my friend  
Let's go drink : moonshine again

Now take it easy : late at night  
One of these here women : ain't going to treat you right
