

# I Am Hell

Blind Witness

Today I'm staring at my incisions  
"I can't believe I'm lost in my own perversion  
I see my face is darkened from my depression  
I can't believe I'm feeling all out of passion."

Why won't this go away  
I'm failing slowly only fading away  
Why won't this go away  
I'm failing slowly only fading away

It's as if my old habits are gone  
When all I see is blood on my arms  
(blood on my arms)  
I wanna make people feel what I can't feel  
I wanna make people kill what can't be killed

Why won't this go away  
I'm failing slowly only fading away

I Am Hell  
I Am Hell  
(I Am Hell)  
(I Am Hell)

It's as if my old habits are gone  
When all I see is blood on my arms  
(blood on my arms)  
I wanna make people feel what I can't feel  
I wanna make people kill what can't be killed

(I come from a place where death lives)

And Imma Fucking Show You. What. Death. Means

I come from a place where death lives  
And Imma fucking show you what death means  
I come from a place where death lives  
And Imma fucking show you what death means

I Am Hell  
I Am Hell

And Hell will prevail
