

## Bedtime Prayers

### Blinded Colony

It seems like no one sees the obvious  
It seems like no one cares to try to understand

A map and some sense is all you need  
To get the bloody picture clear  
The breed by their traditions, passing their god on  
To the new blood, wide open for reception

It seems like no one sees the obvious  
It seems like no one cares to try to understand

Look; we've got the pagans to the south - feeding their gods  
Jesus disciples in our TV - needing their god  
We breed our beliefs

Again and again we breed beliefs  
Still the picture aint bloody clear  
The bombs are since birth attached to our bodies  
For infidels, all ready for destruction

Look; we've got the pagans to the south - feeding their gods  
Jesus disciples in our TV - needing their god  
We breed our beliefs

A well meaning mother continues  
Look; we've got the pagans to the south - feeding their gods  
Jesus disciples in our TV - needing their god  
We breed our beliefs
