Legacy (Slaves In The Name Of Christ)

Blinded Colony

Aggressivly forced upon mankind, your ethical rules for living
Striking fear into humanity to serve your own purpose
Creating slaves in the name of christ, scared to obedience
From generation to generation the lie proceeds

Preaching from your book of holy lies you try to poison our min
ds
Your god doesn't exist to me, I'm free to think for myself
This pillage is unforgiveable, accepting no other beliefs than
your own
Don't think that when you die, you'll go to your precious parad
ise

Your paradise is my hell, your belief is my disgust
After 2000 years of a worthless legacy

Enslaving the world to be yours alone
A race of nonthinkers obeying your God
Builing your Blinded Colony with stinking lies
You are nothing but greedy hypocrites
