

Knocking On Another Door

Blindside

knocking on another door
we're knocking on another door
so you said you wanted to SHOW me your world
and now here we are
i've seen it all before
you said if you opened the door
there's another world
you've been behind bars

but i'm knocking on...

when the discobowls stop spinning
and the music dies out
turning INTO a ringing in your ears
in every bottle, every soul, there's a hole
no matter how much you pour, there's never enough

but we're knocking on...

cheers, bottoms up
this time is gonna be a clean cup

knocking on...
