

Vattnet svart
Som månen full
Varm nattbris viskar

Water black
As the moon is full
Warm nightbreeze whispers
I'm naked and new

I know You're always throwing kisses from the sky
Tonight I caught one
Sixteen years old
I dare to swim further out
I know You're always throwing kisses from the sky
Tonight I caught one

Som om man kunde
Vidröra lycka
Jag virar den runt mig
Som en filt

Like joy was something you could touch
I wrap it around me
Like a blanket
It's just You, me and moon

I know You're always throwing kisses from the sky
Tonight I caught one
Sixteen years old
I dare to swim further out
I know You're always throwing kisses from the sky
Tonight I caught one
