

# Teddybear

Blindside

I'm here  
You've got me  
Have no fear  
Savior that's me  
On a stable rock I'll place you  
You can rest  
That I will personally will see to

You called out my name  
I heard you  
You're healed

What happens now?  
You're healed  
But still I'm disappearing somehow  
In your cry I'll always be near  
But in your laughter I don't disappear  
I'll gladly wipe away your tears  
But I'll never become your teddybear

Don't throw this away  
I'm no teddybear

I'm here  
You've got me  
Have no fear  
Savior that's me  
No favors that's no what I came for  
If you had any idea what I've got in store

You called out my name  
I heard you  
You say I'm feeling fine  
You say no deal  
But I'll always be two steps behind  
In case you change your mind  
In your cry I'll always be near  
But in your laughter I don't disappear  
I'll gladly wipe away your tear  
But I'll never become your teddybear

Think through whatever you decide to do  
Can't make you but I ask you please don't fake  
When you come before me  
I know you don't like when you don't see me with your physical eyes  
But I tell you what you think you see can be lies
