

Born and bred through collar borderline psychotics
Spending most of your life with pushers and alcoholics
Don't try and analyze why we act this way
If I could go back now, there's not a thing I would change
This is where its from and where its at
I know that you can't lie but when I raise like that
You reserve the right to keep it to yourself
And I would too if I respected my own (Fuck you)

This is us and us is this
Better swing and pray you don't miss (Fuck you)
This is us and us is this
Better swing and pray you don't miss

Fuck you and all your nega-tivity. It won't rub off on me.
I've got my own as you can see. You're not alone in hating me.

Tactics with a scratcher match
Place to slash holes in your face, bass drone so low
Shattered vertabrae - rot inside of your backbone
What? You never thought I'd fucking sink this low?
When hate, pride and jealousy's your energy
You are your own worst (enemy)
But in jest you disrespect and defects you
Quick test you revolve (Fuck you)

This is us and us is this
Better swing and pray you don't miss (Fuck you)
This is us and us is this
Better swing and pray you don't miss

Fuck you and all your nega-tivity. It won't rub off on me.
I've got my own as you can see. You're not alone in hating me.

So, us is this
So, us is this

Fuck you and all your nega-tivity. It won't rub off on me.
I've got my own as you can see. You're not alone in hating me
Fuck you and all your nega-tivity. It won't rub off on me.
