

Bittersweet

Blindwish

Bottle up your feelings
I'll shake you 'til you pop
I can say I'm sorry
But we both know that I'm not

I feel exposed
I can't sugar coat this
I feel alone
I can't sugar coat this anymore

Watch as our world splits in two
Watch how fast I forget you

Because you taste so bittersweet
But your sweet is fading fast away
You taste so bittersweet
But now
You're bitter
Your bitter's all I taste

These doors you've opened were never locked
You can say it's worth it but we both know that it's not

I feel exposed
I can't sugar coat this
I feel alone
I can't sugar coat this anymore

Because you taste so bittersweet
But your sweet is fading fast away
You taste so bittersweet
But now
You're bitter
Your bitter's all I taste

Watch as our world splits in two
Watch how fast I forget you

Different day
Same old shit
Your bittersweet has soured
And I'm over it

Different day
Same old shit
Your bittersweet has soured
And I'm over it

Different day
Same old shit
Your bittersweet has soured
And I'm over it

Different day
Same old shit
Your bittersweet has soured
And I'm over it

Because you taste so bittersweet
But your sweet is fading fast away
You taste so bittersweet
But now
You're bitter
Your bitter's all I taste

Watch as our world splits in two
Watch how fast I forget you
