

Infected

Blindwish

Incurable disease
You do as you please
A rogue wave in calm seas
I'm a king without his queen

Tied to these lies that tie me to you
I've been tied to these lies that tie me to you

I've been infected
I can't accept that
This is what's killing me
I've been infected

Won't you pray for me?
Hold hostage all my dreams
And say the things you mean
Instead of just leaving

Tied to these lies that tie me to you
I've been tied to these lies that tie me to you

Tied to these lies that tie me to you
I've been tied to these lies
I just want to cut loose

I've been infected
I can't accept that
This is what's killing me
I've been infected

I've been infected
I can't accept that
This is what's killing me
I've been infected

I've been infected

I can't accept that

This is what's killing me

I've been infected
