Asthenia

Last night it came as a picture With a good reason, a warning sign This place is void of all passion If you can imagine it's easy if you try Believe me I failed this effort I wrote a reminder this wasn't a vision This time where are you Houston Is somebody out there will somebody listen

Should I go back should I go back should I I feel alone and tired Should I go back should I go back should I I hope I won't forget you

My head is made up of memories Most of them useless delusions This room is bored of rehearsal And sick of the boundaries I miss you so much

Should I go back should I go back should I I feel alone and tired Should I go back should I go back should I This time I don't want to Should I go back should I go back should I I feel alone and tired Should I go back should I go back should I I hope I won't forget you

Should I go back should I go back should I I feel alone and tired Should I go back should I go back should I This time I don't want to Should I go back should I go back should I I feel alone and tired Should I go back should I go back should I I hope I won't forget you
