

# Chemical Heart - GEED UP

Bliss n Eso

Yeah yeah yeah  
I woke up to the whole sky golden  
Feeling glowed up  
I been running through the night man  
It's a fight, yeah  
I been knocked to the floor man  
But I rose up  
Let me show you how I fight back  
Where the mic at?  
Everybody get your hands up  
Get your hands up  
It's about to get bananas

I throw a classic haymaker through your speakers  
Everybody geed up  
Cuz you know my sound man gone turn that fucking beat up  
Stand in my Adidas  
I've been knocked down and fucking beat up  
But keep on coming back to drop these heaters  
All I need's a feeling  
A dope beat and my señorita  
Now I'm 30 motherfucking thousand feet up  
Flying with our feet up  
And honestly there's no better feeling  
So it's rock and fucking roll baby  
'Til we find freedom  
So sing it like  
Wooo yeah

Can't get started  
Chemical heart  
Every time I get started  
You pull me apart  
Can't get started  
Chemical heart  
Every time I get started  
You pull me apart

Aye yo  
We just wanna feel connected  
Looking for that treasure in a record that can bless us  
A hunt for euphoria  
Yeah you know the feels  
A million mates of their face on an open field  
Let the music move us  
We feel nothing but bliss  
There isn't any equivalent  
Nothing's fucking with this  
It's an escape  
So we don't have to face our demons  
A place where we finally get a taste of freedom  
Grab the reefer out the glovebox  
Sneaking past the fun cops  
Jimmy got the pingers  
And he keeps 'em in his Dunlops  
Beaming like some sun gods  
Feel it when it comes on

Free and yelling fuck off  
Peaking when the drums drop  
Yeah  
That's what I call paradise  
All my worries wash away when I grab the mic  
See we at war  
But together we can win it  
What a vision to see everybody singing  
Sing it

Can't get started  
Chemical heart  
Every time I get started  
You pull me apart  
Can't get started  
Chemical heart  
Every time I get started  
You pull me apart

Can't get started  
Chemical heart  
Can't get started  
Chemical heart  
Rock and fucking roll, baby  
Yeah  
Can't get started  
Everybody geed up  
Chemical heart
