

# Off The Grid

Bliss n Eso

Knock knock  
Who's there? Oh shit you know who it is  
It's been a while  
Yes it has  
Now it's time for the solar eclipse  
They watched us grow  
They know we're the rose that broke through the bricks  
Yeah we rolled our patrols, got over that bridge  
Yeah, it's three G.O.A.T.S in this bitch  
So what you know about being out here repping peace  
Fuck beef we're going ham on this  
So come and see what it is off the grid  
Let me snow you where the kids of the vanguard live  
We say raise your fist, take no shit  
Yeah, like our grandmas did!  
And these haters might be in the house  
But who do you think the motherfucking landlord is?

I'm off the grid-grid-grid-grid-grid-grid  
I'm off the grid-grid-grid-grid-grid-grid  
I'm off the grid, that's the anthem homie  
I'm off the grid and you can't control me

Huh, oh  
Welcome everybody to the sixth  
Time to travel on our latest adventure into another dimension, off of the grid  
We been deep in the woods and cooking up hella shit  
Audio alchemy with periodic elements  
We never took shit from no one, we just kept on growing to show the world a little anthem across the elephant  
Oh lord, I'mma show you what I'm rapping for  
To flip a door in matter to a matador  
And groove when life's trying to hurt ya'll  
You can hit home runs off of curve-balls  
And sail on the sea of those tears  
Destiny whispered that dream in my ear  
I shake every hand of every fan at every jam at every land  
'Cause god damn they're the reason we're here  
Straight up, I gotta thank ya'll  
'Cause BnE fans that I treasure because no matter the weather  
Everyone banded together when all of the shit hit the fan  
That's why we're family forever, and that's real  
Life on the gauntlet ride  
Best believe only the strong survive  
So, remember to love yourself like Conor McGregor  
Where the fuck's my belt  
What up, haha

I'm off the grid-grid-grid-grid-grid-grid  
I'm off the grid-grid-grid-grid-grid-grid  
I'm off the grid, that's the anthem homie  
I'm off the grid and you can't control me

Yo! It's the return of the Mac  
I'm back yeah you better listen up  
Came in the game like fire in the rain cause I didn't give a fuck

On stage in a rage  
All we do is wanna make love and riot  
I got a unicorn that shits rainbows  
From a father that loves face fucking lions  
Oh, I got a squad full of ninjas  
And that's a gang of gods on a Nimbus  
Zenned out and playing with lightning  
Unplugged, eating cake on a bison  
See with this I can float above the atlas  
And make it rain multicoloured acid  
Magic, it's happening right now  
Imagine a world where you finally defeat the dragon  
But on the real, no jokes  
I nearly died tryna live this life  
Now all I think about now, is how many blessings I can give my tribe  
And raise my seed off love, compassion, and empathy  
Let them know that his soul is golden and we all hold that magical energy  
Oh yeah, there it is I can feel it  
That's what happens when you're dealing with the real shit  
Fuck a beer I'll be happy to order  
Some teriyaki chicken and a gallon of water  
My wilder-people are in sync with nature  
We live off the grid like Ricky Baker (come on 2Pac)  
This shit's my outlet, I don't look on the bright side  
I built a house there

I'm off the grid-grid-grid-grid-grid-grid  
I'm off the grid-grid-grid-grid-grid-grid  
I'm off the grid, that's the anthem homie  
I'm off the grid and you can't control me

We're out here all alone!  
Don't worry about a search party! Haha  
We like it out here! Hahaha  
Come one, come all to gather round!  
For a story will be told  
The future is ours!  
"I heard they were off the grid"  
"I don't believe I've ever seen this before"  
"All I saw was the light and then these feathers"  
"I was off the grid when I saw it"  
The future is ours!  
That's the anthem homie  
I'm off the grid and you can't control me
