Bliss n Eso

Say Jack

It goes a little something like this

I came here to get you off

I came here to lose it

Got a love gun in the back of my trunk

And just for fun I might shoot shit

Yo, where my people at, where my people at

BNE's back I know you needed that

Fuck a pigeon hole I'm too deep for that

So fly when I rhyme I spit Phoenix raps

I'ma sink your ship like Willy the Squid

I'ma take my shot like Billy the kid

And at a show, yo we got you all in a zone

So on stage I'm just trying to ball with my bros, like

Fuck yeah!

Yo this is timeless, you don't see it you better open your eyelids

If the suns up, then you know I'm smiling

And if the shits on fire then ya know I'm rhyiming

You know I'm shining when I write these songs

So imagine if a brother turned his high beams on

And when I do, I told you brother it's my turn

Cause on the beat I'm a bad boy like bright burn

I turn the belly of the beast into lamb chops

With the lyrics I'm a wizard like Gandalf

I'm Starlord while he's doing his dance off

And this shit bumps, like a fist fuck from Thanos

Ooh

Aye yo that's gotta hurt, same thing happened to your head when I rock a verse

I'm Bob Ross while I spark my blunt

With a Cadillac spaceship parked out front

I came here to get you off

I came here to lose it (lose it)

I came here to shake shit down

And prove my love for music (do it)

I came here with a weapon that can bless 'em

Think quick I might use it

I got a love gun in the back of the trunk

And just for fun I'm gonna shoot shit

Yo let's send it

Yo let's send it

Who's gonna send it

I'm gonna send it (hey)

I'm alive on a motherfuckin high

And you can't kill my vibe like Kendrick

Yo let's send it

Yo lets send it

Who's gonna send it
We gonna send it
I got a love gun in the back of the trunk
And if you want some call me Frederick (hectic)

AYE
I Freddy Merk'em
AYE
I Freddy Merk'em

To all my legends
Let's fuckin send it

It used to be
If you're white and your rap they like HA HA
And if you're from Oz they like AHH NAA
Trying to make it big that's a LONG SHOT
But 3 little babies done CRAWLED ON
And grinded for years and GOT STRONG
And blew on the scene like RAW DOG
Now we brew tunes that ROCK ON
Shit... I put 'em down like I'm BOB HAWKE

So bitch I'm a SEND IT
Hyping motherfuckers
And I'm feeling tremendous
I've been making history that shit is cemented
Flipping words into coin
And I'm fucking dyslexic

IRONIC!

But hold up, what's up these days
The local scene just got hit by a gangsta wave
And I ain't got an issue with it
Bro spit your truth
Just remember, what you say, infects youth

Like homie, monkey, see you, monkey, copy
And you might, not be, glorifying, shoties
But they done, take it, from you, like it's, godly
And now they, running
Round and, catching, bodies

That's why, the weapon is the mind
And the ammunition
Are lyrics that I shoot
Splattin' tats on their skin

For every person
I'm hit 'em with the love gun and Freddy Merc Em
