

Dance With Me

Blitzen Trapper

Baby dance with me, baby dance with me tonight
Won't take no for an answer, don't put up a fight
'Cause I'm in love with your mystery, your every little move
So won't you dance with me before the lights go down for good,
yeah

Well I spent a lifetime workin' for the man who holds the keys
Got this ringin' in my ears, got this tremblin' in my knees
But now these city lights are shinin' bright so baby won't you
please

C'mon and dance with me, baby dance with me tonight
Won't take no for an answer, don't put up a fight
'Cause I'm in love with your mystery, you're every little move
So won't you dance with me before the lights go down for good
Dance with me before the lights go down for good, yeah

I spent a lifetime runnin' from the man I used to be
Got this feelin' in my soul, got me jumpin' in my jeans
But now these city lights are callin' me so baby won't you please
C'mon and dance with me, dance with me, dance with me

Dance with me before the lights go down for good
Dance with me before the lights go down for good
'Cause it's all just burnin' down and all the colors movin' slow
The streets are almost empty and I just ain't got no place left
to go

So baby dance with me, baby dance with me tonight
Won't take no for an answer, don't put up a fight
'Cause I'm in love with your mystery, you're every little move
So won't you dance with me before the lights go down for good
Dance with me before the lights go down for good
Dance with me before the lights go down for good
