

## Devil's A-Go-Go

Blitzen Trapper

So you got a bird just to see me break you  
So you got a rock where the water takes you  
Chew you up is simply insane  
Broke a stove and shake it down  
The water was as white as snow  
And the devil's a-go-go

Took it up drunk on a windless subway  
Catchin' all the fat from a barber's runway  
So get me up and put me down  
Just roll me up and kick me around  
Hope you like stackin' stones  
And the devil's a-go-go

I want to be solo  
Stay away from my door  
This treat is a desert  
So give me some more

Just one turn before you go  
Flames and flame and fallen snow  
So show like a girl in a soccer clothes

So you got a bird just to see me break you  
So you got a rock where the water takes you
