

Requiem

Blitzen Trapper

I like the way you roll
Honey, you're made of solid gold
Oh, yeah, I like the way you roll
Honey, you're made of solid gold
Oh, now, come in out of the cold
And forget all the things they sold you
Honey, I like the way you roll
Oh, yeah, you're made of solid gold

So let's shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day

I like the way you roll
Honey, you're made of solid gold
As we're rolling down through the cold
Empty spaces of the cosmos

Now let's shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day

I like the way you move
Oh, now everything's green and blue
Yeah there's no place left to go
You know this is the only shore
Oh, you're never gonna lose your soul
Honey, even if the reaper shows his face
Then life will start anew
Yeah, 'cause that's just the way you move

So let's shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day
Shine a light
Shine a light through the dark day

(Shine a light through the dark day)
(Shine a light through the dark day)
(Shine a light through the dark day)
(Shine a light through the dark day)
(Shine a light through the dark day)
(Shine a light through the dark day)
