

Summer Town

Blitzen Trapper

Lovin' in my summer town
Trees the love the wind bowed down
I watch you wathin' me so still
The cup that overfills can't spill
I only wanted to be used and not misplaced
Breaker take this lazy fool
I know enough to keep it cool
Sleeping by the rivers side
Its just another place to hide
I only wanted to be used and then replaced
Lovin' in my summer town
Guess I better write this down
The river you just can't ignore
We spread all up and down the shore
In my summer town
